

Leopard Bootcamp

Join the ranks of Mac OS 10.5 recruits trained to handle Leopard with stealth and expertise. We've combined Mac OS X Support Essentials with Mac OS X Server Essentials to give you seven days of Leopard training that will prepare you for any OS 10.5 technical terrain. Be one of the first to get your training and certifications for Leopard.

Bootcamp starts with Mac OS 101-Mac OS X Support Essentials v10.5, a three-day, hands-on course that provides an in-depth exploration of troubleshooting on Mac OS X. This course is designed to give you a tour of the breadth of functionality of Mac OS X and the best methods for effectively supporting users of Mac OS X systems. The course is a combination of lectures and hands-on case study exercises that provide practical real-world experience.

Next stop at Bootcamp is Mac OS 201-Mac OS X Server Essentials v10.5. Mac OS X Server Essentials is a four-day course designed to give technical coordinators and entry-level system administrators the skills, tools, and knowledge to implement and maintain a network that uses Mac OS X Server. Students learn how to install and configure Mac OS X Server to provide network-based services, such as file sharing, authentication, and printing. Tools for efficiently managing and deploying Mac OS X and software updates are also covered. The course is a combination of lectures and hands-on case study exercises that provide practical real-world experience.

Prerequisites for these classes are basic Mac OS X knowledge and basic troubleshooting experience.

MacTEK wants you to enlist today! Register for both Mac OS 101 & 201 together and save \$200 plus get a Bootcamp shirt. Take your certification tests with us during Bootcamp and we'll pay for the test! That's a total savings of \$500!
